Growing Green

HAGADONE
PRINTING COMPANY

Sustainability is the ability to demonstrate environmental responsibility, while remaining profitable. Since 1994, we've exemplified the term. The impact of our industry-leading ecological initiatives are real and significant. Following are the projected savings of our earth's resources in just one year: 11,600 Full-grown Trees 🌿 605,000 Gallons of Water 🌿 1,680 Metric Tons of Solid Waste 🌿 2,712 Tons of Greenhouse Gas Emissions 🌿 We are committed to doing the best for customers, our employees, and the environment. World-class printing—without harming the world. Become part of the solution. Visit www.hagadoneprinting.com/printgreen to learn more.
